TailwindCSS

Profile

Highly motivated software engineer with hands-on experience in full-stack development, specializing in building scalable and efficient web and mobile applications. Proven track record of leading small teams and managing projects from conception to deployment while embracing Agile methodologies to ensure timely delivery and client satisfaction.

Education

- Diploma in Information and Communication Technology** **Mar 2022 - Oct 2022**
ICBT Campus, Colombo, Sri Lanka
- BSc (Hons) in Data Science** **Nov 2022 - Present**
Cardiff Metropolitan University, City of Wales, UK

Employment

- Software Engineer - Intern** **Aug 2024 - Sep 2025**
KINDLY, Remote
 - Collaborated in Agile sprints with 4 member team (senior engineer, PM, AI engineer, analyst), holding 4+ weekly Google meetings for alignment, feedback, and iterative refinements on subscription-based product.
 - Engineered responsive frontend with Next.js, TypeScript, Shadcn UI, and Tailwind CSS, implementing Figma designs for dual landing pages (toggle functionality) and 2 specialized dashboards.
 - Developed backend using Supabase and PostgreSQL for secure auth, real-time sync, and scalability, integrated with TanStack Query for optimized API fetching and state management.
 - Managed Git for collaborative branching/merges and used Notion for bug tracking, automated testing, and progress reporting, ensuring swift resolutions and code quality.
 - Deployed on Vercel for CI/CD pipelines, achieving 30% faster load times and scalability; exceeded 8-hour daily commitments to meet deadlines and maintain 100% sprint velocity.
- Founder | Software Engineer** **May 2024 - Present**
AM Solutions, Remote
 - CEO/lead engineer; built 3-member team (engineer, UI/UX designer, marketer) for full-stack freelancing platform using Vite, React.Js, TailwindCSS; deployed on Vercel for high performance.
 - End-to-end delivery of web apps (Next.js/React), mobile (Android Studio/Java), backends (ASP.NET/.NET, Firebase/Supabase); ensured scalability via Agile.
 - Git for version control, Figma for prototyping; expanded portfolio (e-commerce, bookings, APIs) on GitHub, boosting client satisfaction.
